DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8 and 9 remain rejected under 35 U.S.C. 103(a) as being unpatentable over O'Sullivan (5,373,426).

O'Sullivan discloses a vehicular lighting system comprising a grill [18] and a light fixture [12] integrated with and unobstructed by the grill.

O'Sullivan does not disclose that the light fixture (or light fixture socket) and the grill may be formed and sold as a single piece. However, forming the piece integrally would prevent the light fixture from loosening and falling off the grill, preventing it from becoming a projectile during a crash. Also, an integral design would allow the grill and fixture to be designed as a whole creating a more unified appearance. Thus, it would have been obvious to one having ordinary skill in the art at the time the invention was made to form the grill and fixture of O'Sullivan integrally to create a better design and a safer product.

Allowable Subject Matter

Claim 10 remain objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-6 and 11 are allowed.

Response to Applicants' Remarks/Arguments

First, Applicant argues that O'Sullivan does not disclose a vehicle grill. Applicant's attention is directed to element numeral 18 that is defined as a grille [column 4, line 56] that is part of a vehicle [16: column 4, line 38].

Then, applicant argues that the Office action failed to show that there is any motivation found in O'Sullivan or any other prior art to modify O'Sullivan in the way disclosed above. Applicant is correct. However, explicit motivation is not needed. The motivation to modify O'Sullivan would have been the knowledge to one of ordinary skill in the art in combination with the device of O'Sullivan. Stated differently: for one of ordinary skill in the art, the device of O'Sullivan, itself, would be enough to suggest the modification for the reasons stated in the rejection.

In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
